

Transformational Leadership Supports Nurse Satisfaction and Cost Savings

Myoshi Jackson-Austin, MNSc, ACNP-BC, Clinical Services Manager - H9 Solid Organ Transplant advocated for resources to obtain Peritoneal Dialysis Cyclers to be used for patients throughout the hospital. Myoshi's innovative solution as a nursing leader will improve nurse satisfaction in care delivery, patient experience in receiving specialized care, and will provide a cost savings to the organization of approximately \$400,000 per year.

If you want a nursing career that is valued and supported, consider UAMS!
